SCIENTIFIC NOTE

PROPOSED REPLACEMENT NAME FOR *HYDROPTILA SETIGERA*
(TRICHOPTERA: HYDROPTILIDAE)¹S.C. Harris²

In a 1986 paper on microcaddisflies from Alabama (J. Kansas Entomol. Soc. 59:610), I described a new species of *Hydroptila*, as *H. setigera*, unaware that this specific epithet was used by Alice Wells in her description of a new *Hydroptila* from New Guinea (Australian J. Zool. 32:271, 1984). *Hydroptila setigera* Harris, 1986 is thus a homonym and must be renamed. I here propose the name *cottaquilla* as a replacement name for *H. setigera* Harris, 1986. The name is taken from Cottaquilla Mountain which is near the type locality. The type specimen from Calhoun County, Alabama is deposited in the National Museum of Natural History, Smithsonian Institution.

¹ Received March 30, 1994. Accepted May 24, 1994.
