Note :—The early records of the International Commission on Zoological Nomenclature were destroyed many years before the decision taken in 1939 that records relating to matters dealt with by the Commission in its *Opinions* should in future be bound up in volumes for permanent retention in its archives (1943, *Bull. zool. Nomencl.* **1** : 73—74). The information given here is therefore inevitably very meagre. No information at all is available as to the origin of the applications dealt with in *Opinions* 1—5, 7, and 9. Nor is there any information available as to the origin of the applications dealt with in *Declarations* 1—9.

SUBJECT INDEX

	Page
<i>albicans</i> Bosc, [1801—1802], as published in the combination <i>Oxypoda albicans</i> (Class Crustacea, Order Decapoda), provisionally ruled in <i>Opinion</i> 13 to be the oldest available specific name for the Sand Crab	209
declared to be a subjective junior synonym of <i>quadratus</i> Fabricius, 1787, as published in the combination <i>Cancer quadratus</i> by Ruling given in <i>Opinion</i> 262	354—355
<i>Alca</i> Linnaeus, 1758 (Class Aves), type species of, determined by Linnean tautonymy as <i>Alca torda</i> Linnaeus, 1758, by Ruling given in <i>Opinion</i> 16	257
proposed addition of, to <i>Official List of Generic Names in Zoology</i> ..	279—280
addition of, to <i>Official List of Generic Names in Zoology</i> , with <i>Alca torda</i> Linnaeus, 1758, as type species, by Ruling given in <i>Opinion</i> 271	356
<i>arenarius</i> Toreen, 1765, as published in the combination <i>Cancer arenarius</i> (Class Crustacea, Order Decapoda), discussion of, in Editorial Notes (1947) to re-issue of <i>Opinion</i> 13	218
a senior homonym of <i>arenarius</i> Edwards, 1771, as published in the combination <i>Cancer arenarius</i> (Ruling given in <i>Opinion</i> 262)	353—354
<i>arenarius</i> Edwards, 1771, as published in the combination <i>Cancer arenarius</i> , an invalid name because published in a reprint of a pre-1758 book without being re-inforced by adoption or acceptance by the author by whom so published (<i>Opinion</i> 13)	209
invalid, in addition to reason given in <i>Opinion</i> 13, because a junior homonym of <i>arenarius</i> Toreen, 1765, as published in the combination <i>Cancer arenarius</i> (Ruling given in <i>Opinion</i> 262)	353—354
placed on the <i>Official Index of Rejected and Invalid Specific Names in Zoology</i> by Ruling given in <i>Opinion</i> 262	354—355
<i>blennioides</i> Rafinesque, 1819, <i>Etheostoma</i> (Class Pisces), selection of, by Agassiz (1854), as type species of <i>Etheostoma</i> Rafinesque, 1819, not invalidated by fact that, when making this selection, Agassiz misidentified the species which he so selected (<i>Opinion</i> 14)	237
<i>caballus</i> Linnaeus, 1758, <i>Equus</i> (Class Mammalia) determined as type species by Linnean tautonymy of <i>Equus</i> Linnaeus, 1758, by Ruling given in <i>Opinion</i> 16 ..	257
placed on <i>Official List of Specific Names in Zoology</i> by Ruling given in <i>Opinion</i> 271	356

Catesby (M.), 1771, <i>Natural History of Carolina</i> (Edwards Ed.), rejection of as not satisfying the requirements of Article 25 of the <i>Règles</i> implicit in Ruling given in <i>Opinion</i> 13 (relating to specific name of the Sand Crab)	209
suppression of, under the Plenary Powers by Ruling given in <i>Opinion</i> 89, except the portion containing a Concordance of the nomenclature used by Catesby with that used for the same species by Linnaeus	214
proposed adoption simultaneously with the cancellation of <i>Opinion</i> 13 of an <i>Opinion</i> rejecting for nomenclatorial purposes the Edwards edition of Catesby's <i>Natural History of Carolina</i> , with the exception of the Linnean Concordance 227—232	
rejection of the Edwards edition of Catesby's <i>Natural History of Carolina</i> , with the exception of the Linnean Concordance by the Ruling given in <i>Opinion</i> 259 ..	351
title of, placed on the <i>Official Index of Rejected and Invalid Works in Zoological Nomenclature</i> , with the exception of the Linnean Concordance, by the Ruling given in <i>Opinion</i> 259	352
Linnean Concordance in, placed on the <i>Official List of Works Approved as Available for Zoological Nomenclature</i> by the Ruling given in <i>Opinion</i> 259 ..	352
<i>Coronella</i> Goldfuss, 1820 (Class Rotifera), an invalid junior homonym of <i>Coronella</i> Laurenti, 1768 (Class Reptilia) (<i>Opinion</i> 12)	193
<i>Craspedacusta</i> Lankester, 17th June 1880 (Class Hydrozoa), a senior subjective synonym of <i>Limnocoedium</i> Allman, 24th June 1880 (<i>Opinion</i> 15)	247
<i>Declaration</i> 1 (" Code of Ethics to be observed in the re-naming of homonyms "), text of	3—4
insertion in the <i>Règles</i> by Thirteenth International Congress of Zoology, Paris, 1948, of a provision embodying Ruling given in (and also the Supplementary Ruling thereto given in <i>Declaration</i> 12)	332—334
repeal of, in 1948, except for historical purposes, consequent upon the codification by Thirteenth International Congress of Zoology, Paris, 1948, of Ruling given in	333
<i>Declaration</i> 2 (" On the importance of avoiding the issue of authors' reprints or separata in advance of the publication of the work or journal in which the paper in question is to be published "), text of	9—11
non-mandatory provision prescribed by Ruling given in, conversion of, into a mandatory provision by Ruling given in <i>Opinion</i> 59	334
insertion in the <i>Règles</i> by Thirteenth International Congress of Zoology, Paris, 1948, of a provision embodying in mandatory form the Ruling given in ..	334—335
repeal of, in 1948 except for historical purposes, consequent upon the codification by Thirteenth International Congress of Zoology, Paris, 1948, of Ruling given in	335

<i>Declaration 7</i> ("On the need for quoting bibliographical or other references for all names cited in zoological works"), text of	51—53
insertion in the <i>Règles</i> by Thirteenth International Congress of Zoology, Paris, 1948, of a <i>Recommandation</i> embodying Ruling given in	345
repeal of, in 1948, except for historical purposes, consequent upon the codification by Thirteenth International Congress of Zoology, Paris, 1948, of Ruling given in	345
<i>Declaration 8</i> ("On the need for giving in the case of zoological journals a clear indication of the date of publication of each number or part"), text of	59—61
Ruling given in, incorporated in the <i>Règles</i> jointly with that given in <i>Declaration 3</i> , as a <i>Recommandation</i> by Thirteenth International Congress of Zoology, Paris, 1948	336
Repeal of, in 1948, except for historical purposes, jointly with <i>Declaration 3</i> , consequent upon the codification by Thirteenth International Congress of Zoology, Paris, 1948, of Ruling given in	336
<i>Declaration 9</i> ("On the desirability of Universities including zoological nomenclature in their courses of general and systematic zoology"), text of	67—68
Ruling given in, decision by Thirteenth International Congress of Zoology, Paris, 1948, not to codify, on ground that that Ruling, being in the nature of a statement of policy, could not appropriately be incorporated in the <i>Règles</i>	346
Repeal of, in 1948, except for historical purposes, consequent upon decision by Thirteenth International Congress of Zoology, Paris, 1948, that in future the "Declarations" Series be reserved for recording Rulings regarding the interpretation of provisions in the <i>Règles</i> given by the International Commission on Zoological Nomenclature during inter-Congress periods, pending the definitive approval of those Rulings by the next International Congress of Zoology	347
<i>Echeneis</i> Linnaeus, 1758 (Class Actinopterygii), type species of, cited in <i>Opinion 16</i> as having been determined as <i>Echeneis remora</i> Linnaeus, 1758, by Linnean tautonymy	261
placed on the <i>Official List of Generic Names in Zoology</i> by Ruling given in <i>Opinion 92</i> , with <i>Echeneis naucrates</i> (emend. of <i>neucrates</i>) Linnaeus, 1758, incorrectly specified as type species	289
proposed use of the Plenary Powers to designate <i>Echeneis naucrates</i> (emend. of <i>neucrates</i>) Linnaeus, 1758, to be type species of	297—298
designation under the Plenary Powers of <i>Echeneis naucrates</i> (emend. of <i>neucrates</i>) Linnaeus, 1758, to be type species of, by Ruling given in <i>Opinion 242</i>	357
position of, on <i>Official List of Generic Names in Zoology</i> confirmed by Ruling given in <i>Opinion 242</i> , subject to correction of entry relating to type species of, as prescribed in Ruling given in that <i>Opinion</i>	357
Edwards (G.), edition by, of Catesby (M.), <i>Natural History of Carolina</i> , see Catesby (M.), 1771, <i>Natural History of Carolina</i> (Edwards Ed.)	
<i>eichhornii</i> Ehrenberg, [1832], as published in the combination <i>Stephanoceros eichhornii</i> (Class Rotifera), an invalid name because a junior objective synonym of <i>fimbriata</i> Goldfuss, 1820, as published in the combination <i>Coronella fimbriata</i> , an available name (<i>Opinion 12</i>)	193

starting point of zoological nomenclature in 1758, to be treated as having been on 1st January of that year and the Tenth Edition of <i>Systema Naturae</i> of Linnaeus to be treated as having been published on that date, under Ruling given in <i>Opinion</i> 3	97
partial incorporation in the <i>Règles</i> of Ruling given in <i>Opinion</i> 3 by Eleventh International Congress of Zoology, Padua, 1930	99
incorporation in the <i>Règles</i> by Thirteenth International Congress of Zoology, Paris, 1948, of the portion of the Ruling given in <i>Opinion</i> 3 which had not been so incorporated by the Eleventh International Congress of Zoology, Padua, 1930	313—314

ARTICLE 30, Rule (a)

expression “n.g., n.sp.” when used on the publication of a new generic name, interpretation of, in relation to Rule (a) in Article 30, by Ruling given in <i>Opinion</i> 7	141
limitation by Thirteenth International Congress of Zoology, Paris, 1948, of Ruling given in <i>Opinion</i> 7, (a) to cases where expression “n.g., n.sp.” used in relation to a single species in any given genus and (b) to names published before 1st January 1931	320
insertion in the <i>Règles</i> by Thirteenth International Congress of Zoology, Paris, 1948, of Ruling given in <i>Opinion</i> 7, subject to the amendments to that Ruling previously adopted by that Congress	321

ARTICLE 30, Rule (d)

a genus to be treated as having had its type species determined by absolute tautonymy where in the synonymy of an included species there is cited a pre-1758 univocal species-name consisting of the same word as the generic name, under Ruling given in <i>Opinion</i> 16	257
Ruling given in <i>Opinion</i> 16 defined by Thirteenth International Congress of Zoology, Paris, 1948, as applying only where a pre-1758 univocal species-name is cited in the synonymy of not more than one of the included species	329—330
limitation by Thirteenth International Congress of Zoology, Paris, 1948, of Ruling given in <i>Opinion</i> 16 to generic names published before 1st January 1931	330

Règles Internationales de la Nomenclature Zoologique—continued

- insertion in the *Règles* by Thirteenth International Congress of Zoology, Paris, 1948, of a provision embodying the Ruling given in *Opinion* 16, subject to, the clarification of, and to the amendment to, that Ruling previously made by that Congress 330

ARTICLE 30, Rule (g)

- nominal genera established with identical limits, any later author free to select any of the included species in, to be the type species of each of the genera concerned, under Ruling given in *Opinion* 10 173
- limitation by Thirteenth International Congress of Zoology, Paris, 1948, of Ruling given in *Opinion* 10 to generic names published before 1st January 1931 324—325
- insertion in the *Règles* by Thirteenth International Congress of Zoology, Paris, 1948, of a provision embodying Ruling given in *Opinion* 10, subject to the limitation on that Ruling previously imposed by that Congress 325
- nominal genus established with two included species, type species of, when one of the included species is designated or indicated as the type species of a new monotypical genus, determination of, by elimination, under Ruling given in *Opinion* 6 129
- Ruling given in *Opinion* 6 defined by Thirteenth International Congress of Zoology, Paris, 1948, as applying only when not more than two species originally included in the genus concerned 319
- limitation by Thirteenth International Congress of Zoology, Paris, 1948, of Ruling given in *Opinion* 6 to generic names published before 1st January 1931 319
- insertion in the *Règles* by Thirteenth International Congress of Zoology, Paris, 1948, of a provision embodying Ruling given in *Opinion* 6, subject to the clarification of, and to the limitation imposed on, that Ruling by decisions previously taken by that Congress 319
- repeal, subject to the grant of protection to type determinations already made under *Opinion* 6, by Fourteenth International Congress of Zoology, Copenhagen, 1953, of provision embodying the Ruling given in above *Opinion* adopted by Thirteenth International Congress of Zoology, Paris, 1948 320
- an author selecting a type species for a previously established nominal genus to be deemed to have correctly identified the nominal species so selected, under decision implicit in the Ruling given in *Opinion* 14 237
- insertion in *Règles* by Thirteenth International Congress of Zoology, Paris, 1948, of a provision embodying the decision regarding the interpretation of Rule (g) in Article 30 implicit in the Ruling given in *Opinion* 14 325—326

New Article (6) inserted in the *Règles* by the Thirteenth International Congress of Zoology, Paris, 1948

- Code of Ethics to be observed by authors when re-naming junior homonyms published by other authors laid down in *Declaration* 1 3
- re-affirmation of Code of Ethics by International Commission on Zoological Nomenclature when rejecting in *Declaration* 12 a proposal that it should accept disciplinary powers for use in cases of infringements of the above Code 333
