Aufruf

Neubearbeitung der Roten Listen der Spinnentiere Deutschlands New versions of the Red Data Lists of the Arachnids in Germany

Seitens des BfN (Bundesamt für Naturschutz) ist für die nächsten Jahre die Neubearbeitung der Roten Listen der Tiere, Pflanzen und Pilze geplant. Im Jahr 2004 fanden zu diesem Thema vier Regionaltreffen und ein Workshop des BfN statt. Konzeptionell und bezüglich der Transparenz und Nachvollziehbarkeit ergeben sich einige Änderungen gegenüber bisherigen Roten Listen. Dies bedingt auch eine längerfristige Vorbereitung und Planung. Daher bitte ich hiermit alle, die sich in irgendeiner Weise bei den Roten Listen mit einbringen bzw. beteiligen möchten, sich per e-mail bei mir zu melden: Theo.Blick@t-online.de. Bis ca. April 2005 wird dann die konkrete Planung gemeinsam vorgenommen. Ich kann bereits jetzt Interessenten die mir vorliegenden Unterlagen des BfN per e-mail zur Verfügung stellen. Im Zusammenhang mit der Erarbeitung der Roten Listen wird es auch wichtig sein, die Internet-Karten (www.spiderling.de.vu) weiter zu verbessern. Dazu kann jede/jeder bereits jetzt etwas beitragen.
