The Generic Names *Chartergus*, *Parachartergus*, *Epipona* and *Tatua*. A Correction (Vespidæ, Hymenoptera).—Shortly before her untimely death, the late Miss Grace Sandhouse called my attention to a serious oversight, which vitiates my use of several generic names in a paper revising some Neotropical social wasps (1938, *Revista de Entomologia*, IX, pp. 99-117). In order to avoid further confusion the necessary corrections should be made in print. As Miss Sandhouse pointed out to me, Emile Blanchard in 1840 (*Hist. Nat. Ins., Orth. Névr. Hém. Hym., Lép. Dipt.*, pp. 394 and 395) designated genotypes for *Epipona* and *Chartergus*, a fact which I had overlooked. This necessitates the following changes:

1. *Parachartergus* v. Ihering (1904) is the valid name of the genus I called (1938) *Chartergus*.

2. *Chartergus* Lepeletier (1836) has as type *Vespa nidulans* Fabricius (1793) = *Vespa chartaria* Olivier (1791), as designated by Blanchard. Hence it is the valid name of the genus I called (1938) *Epipona*. *Chatergus* Erichson (1838) (not "*Chartergus*" as this was "corrected" by the Editor of the *Revista*) is a misspelling of *Chartergus*.

3. *Epipona* Latreille (1802) has as type *Vespa morio* Fabricius (1798) = *Vespa tatua* Cuvier (1797), as designated by Blanchard. Hence it is the valid name of the genus I called (1938) *Tatua* H. de Saussure (1854). The latter, having the same type (by Ashmead's designation), becomes a synonym of *Epipona*.—J. BEQUAERT, Museum of Comparative Zoölogy, Cambridge, Mass.

Bequaert, Joseph C. 1943. "The generic names Chartergus, Parachartergus, Epipona and Tatua. A correction (Vespidae, Hymenoptera)." *Bulletin of the Brooklyn Entomological Society* 38, 4-4.
