Boston Oct 30. 1869

My Dear Sir

I have not yet had time
to read the Report on Canices.
but in running over the names
I find the names of some species
which I think that the Society
should not publish as natives
of Nebraska, without an inspection
of the plants by some good
Canicologist.

Has Dr Hayden given a set of
specimens to the Society? If he
has not where can a set be
obtained?

J. P. James Esq
Cambridge

Yours truly

William Booth
