DEPUTY HEAD AND DIRECTOR,

MUSEUM AND OFFICE, SUSSEX STREET, OTTAWA.

Ottawa June 25th 1891

Dear Sir

To day I send you a packet of plants containing the Carices collected by my father and I that have not already been sent you. The packet also contains a number of the Abetalae and Endogae collected last season. Should you find any of them incorrectly named will you kindly write my father of any change you would suggest. I start tomorrow for Behning Sea and as I shall pay particular attention to botanical matters while there hope to add a little to our knowledge of that region.

You will please note the two species of *Epipactis* are new to and the other rare in Canada.

Yours truly
Jos. M. Macoun
