

My dearest friend!

To morrow I shall start from hence for the Water of Marienbad, Bohemia, for sake of my arthritical complaint; but before I must write to you, to the noble beloved friend and to his highly accomplished amiable Lady, who favoured me with your photograph and with a friendly letter. Thank, thank and thank for all, what the beloved couple Gray does and write, to me! Mr. Clark is a very good natured amiable youth, deeply attached to you, and who gave me the most welcome news about all I could wish. Your likeness is now on the wall in my study, wherever the following series of botanical friends is exhibited allways to my eyes:

Schrank. Hugo Mohl. Rob. Brown. Ledebour. Wallich. DeCandolle. Fenzl.
Alex. Braun. Jacq. I. II. Meisner. Lindley. Treviranus. Endlicher. Asa Gray.
my father, Flix, Muebel. Kunze.

Mr. Clark may give you a more detailed description. I appreciate highly to hear from him often, what you are doing and I hope, that his stay at Munich will afford a new medium for our conversation.

I cannot express to you how much I am pleased with the likeness, which is a very good one, only it seems a little too dark, the common default of photography.

All what Mr. Clark brought was well received. I thank you for the fine books. Tournefort has been first to him in meadly; he will accord reception to yourself.

My successor has not even now been named. The government liked to have Grisebach, but he would not come, Schleiden liked to come, but the Government and especially the Coterie, which has influence in vocations liked him not. Hugo Mohl also has very little intention, as it seems, to come to a place surrounded

with so many difficulties. Myself, I have never been con-
fused, because, as I presume, ~~at~~ one likes not to hear the truth
from my independent mouth. For myself all is right! Vive
la Bagatelle et vogue la galère!

From the Flora Bras. you shall have received J. B. 14.
- Jap. 15. with *Alströmmeria* (Schenk), *Agaveae* (Mart.)
Xyrideae, *Convolvulaceae*. (Seubert) is quite ready.
What I wish, is to publish my *Plantae medic. et aeron.*,
but I feel distracted by the redaction. There are also
some difficulties arising by want of good material of Cincho-
næa, which begin the work.

I send to day by Negrioli of this town to Roding for you
and for the Smithsonian Institution at Washington a large
box. Contents are: (X for the Institution)

1, Karsten Vegetations Organe der Palmen. 4^o Berl. 1847.

2 Weisbrod Oriental. Pest. 4^o X

1 Kussbaur Cornea artificialis X

1 Martens Rechtszustand X (if you do not wish it)

1 Gemminger rhormyrus

1 Tutschek galla - Language X

1 Erlangen from 1843 - 1843 X

1 Huber Daseyn Gottes X

1 Mesmer Basilica X

1 Söwering Verdunstung durch Thier. Häute. X

1 Erdl Gymnars hies niloticus X

1 Müller Petrefacten v. Aachen X

1 Erdl de oculo X

2 Gumbel die 5 Wurfelschnitte

2 Miquel Oratio de regno vegetabilis

1 Parcel Algae

1 — Plantae alpinae

1 other large parcel from Molendo

1 Parcel Musci

1 — — for Mr. Tucherwan

1 — — for Mr. Sullivant.
