

HERBARIUM OF HARRY N. PATTERSON,

Oquawka, Henderson Co., Ill., Jan. 19, 1885.

Prof. S. Watson.

Dear Sir = In accordance with your kind offer of a few weeks since to help me with the M.S. for a check-list of North American Apetalae, Endogaea, &c., I now send for correction and additions as full a <sup>list</sup> of the Apetalae as I have been able to procure from my small library. I want to give all the species and varieties of N. Amer., and those of Mexico which approach the line so closely that they are likely to be found on this side. I cannot find on my maps some of the localities given in Mex. Bound. Surv. and in your writings, so that some of the species given in the list ~~may~~ as "Adj. Mex." may have to come out. I have not the latest issue of Gray's Manual or of the Suppl. to Chapin's Flora. Have no publications giving the flora of British Am., Alaska, &c. Some authorities left out, please supply. The Orders and genera I want to
