

Lancas

My dear Professor,

I send you a
parcel containing 100 Speci-
mens, some of the fruits of
labors during the past year,
greatly by removing my do-
errors. I have in hand a
State & another of Lancast.
to make them as complete

The roots of Gilia Napaea, loc.
I failed to procure, but hope
the geranium sent you last year
is, as you suggested, undoubted.
It agrees in every respect with
of that species in my herbarium.
Muhlenberg & Eaton to the U.
by later botanists. - Aster divaricatus
not reach. A young botanist, at
locality, promised to get me
specimens, but he entered the
& if his father, to whom I wrote
in finding it, I must wait another
doronicoides, Lam. I discovered
Susquehanna & collected a bunch
were long & of the thickesties of a,
lost them on my way home.
In the Manual please note the following:

In the Manual please note the following:

Page xxiv, line 7 fr. top for "126"
" 168 " 17 " " " No. 8 "
" 406 " 7 " bottom " " value
" 542 " 6 " top " " comp

Porter, Thomas C. 1862. "Porter, Thomas C. Oct. 18, 1862." *Asa Gray correspondence*
