

My dear Professor,

I have your
Contributions, for which
my best thanks.

Dr. Darlington has done
Schweinitz as saying, that
should commit a very
the most fitting, penalty can
be to prepare a monograph
on looking up the goldenrod
Monticello, Ga., Sept. 1846,
label, "Solidago bicolor, L." I
had sent it to you with the
a new species? I should be
opinion. If new, you are at
its affinities are certainly with
which it may be a variety
to make it, but it seems to
enough to enable it to stand.
stem is less stout - the leaves
scabrous - the habit of the
far lower, with the lower branched
elongated & bearing interrupted
heads - pedicels with fewer bracts
involute not operculate, the sea-

Porter, Thomas C. 1879. "Porter, Thomas C. Oct. 14, 1879." *Asa Gray correspondence*
