

1800 only species -

conditions, and all those that
are left in the damp dark woods
will be grass-leaved. I will ~~not~~
try it here, and you please
see what becomes of those
sent to the Garden.

I send with this note some
pruned flowers of the Iris to show
the form and color of the
two larger forms. Also a
flower all of its parts in twos,
there were five flowers on the ~~stem~~ ^{not green} that
stem - all in twos. Is it not
quite a freak?

I will send Herbarium
specimens before long.

With sincere thanks for
your kind and instructive ^{of course} note I am,

Yours sincerely,

Mary Heath.

Plenty of Hepaticae was also growing in
these great beds, so some of the seedlings may
