

The Shaw School of Botany,

William Trelease,

Professor in Charge.

St. Louis, Mo., 6/4 1887.

Dear Mr. Watson:

I return 5 species of the Licinaceae which I hope will reach you safely. I am greatly obliged for the privilege of using them. I have laid in with them on Pisyniuishimus, would you mind naming them for me & returning later?

I am going over Loranthaceae, now, with all the Engelmann drawings, notes & material. If you have any instructive specimens since publication of Bot. Calif. I should be very glad to see them. Will I trouble you to send me at Madison, this, your N.A. Clusiaceae, if they can be spared and you are willing. I should study them? I am anxious to go on with orders near Licinaceae. I leave for Madison tonight. Very truly yours, Wm. Trelease.
