

Aug 25th 2005
Man

based on Specimens from
your herbarium. Dr Gray
says they are all one.
But it w^{ll} be a great
help to me if you could
look into it and lend
or give me any Specimens
which will make me
to see what difference,
if any A.D.C. relies
upon

Yours very truly
W.T. Thiselton Dyer

Aug. 7. 81

My dear Sir

We have sent you
170 economic plants
including 160 sp. in
5 close cases for S.S.
Hansa -

I hope they will
reach you in good order

as the plants go in
closed boxes without
light they will receive
a good deal of attention
on arrival and they
should be looked out
for as early as possible
Dr Gray would have

preferred their going
later. But as they
are gone the suggestion
comes too late. However
we must take the
best

A. De Candolle in the
Prodromus credits the
Southern United States
with two species of *Zamia*

Thiselton-Dyer, William T. 1881. "Thiselton-Dyer, William T. Aug. 7, 1881."
William Turner Thiselton-Dyer letters to Asa Gray
