

And
Sept. 16.

31
Contrails House Herford
July 11845

My dear Sir

On passing through
London I sent addressed to you
to the care of Wiley & Putnam
a full copy of so much of my
Scrophularium for the
Prodrromus as relates to N.
American species - Mr
Dunham copied out the
greater part for me but
at the last I was obliged to
get it finished by a young
man & had not time to
read over his part but
on looking over it seemed
all right

The vol. will be out I
suppose by Xmas

I have since seen several additional Californian species of *Mittelli* - I shall perhaps insert them in the *Adenda*

I have just determined Coulter's Californian Leguminosae for Harvey who is going to publish Coulter's plants - the new species were 8 - 1 *Lupinus* 2 *Horradia* 1 *Tripodium* 1 *Chama* 1 *Astragalus* 1 *Dalea* 1 *Proserpin*

I have got scarcely any United States Viciae - not any U.S. specimens of *Lathyrus* reasons - Can you spare me any?

I shall be glad to hear of the safe arrival of the specimens I returned

Yours very sincerely
George Donnell

Bentham, George. 1845. "Bentham, George July 1, 1845." *George Bentham letters to Asa Gray*
