

New Bedford, July 26/90

Dear Dr. Watson:

I send by mail separate packages a few plants of *Smilacina stellata* 3 weeks later than the last, & as the berries are now falling off & consist mostly of seeds I conclude that they will not change materially in color; if however I find any more mature will send them. I also send for inspection what I have named:

Plantago Virginica

Lechea major

" *minor*

" *thymifolia*

Please say if I am correct. I have no use for the plants as I have duplicates.

Please address to Vauxhall House,

July 27

E. Williams Hervey

Hervey, E. W. 1890. "Hervey, E. Williams July 26, 1890 [to S. Watson]." *Asa Gray correspondence*
