

New Bedford Feb. 24, 1891.

Dear Doct. Watson:

Is the habitat of *Tiburnum nudum* in Abbeau 1890 correctly stated?

I had called the one growing abundantly here *T. nudum* & it is unlike one named by Jackson Dawson as *T. cassinoides* which has a larger and broader leaf & cymes more thickly & closely set. If J. D. is correct then mine is *T. nudum* & the habitat of the Abbeau would be in error & therefore I make the inquiry -

In regard to my pkg. of plants - sent you last November I wish to say, that I have now completed my local Catalogue of plants, with the exception of those sent you, & I would like to send it to the printer in order to get it printed by the opening

of Spring.

Now if you can  
conscientiously under the circumstances  
and without great injustice to any  
one else favor me this time  
I would appreciate it.

I would suggest that you  
might run through them, naming  
such as you can at a glance  
and send to me & if by chance  
there should be 2 or 3 which  
you would like to examine  
with more care, to retain  
them until some time when  
you are less occupied.

I found *Symplocarpus foetidus*  
today in flower & the bud of *Lindera*  
*Bezoin* much swollen.

Very yours

E. William Harvey

Hervey, E. W. 1891. "Hervey, E. Williams Feb. 24, 1891 [to S. Watson]." *Asa Gray correspondence*
