

and much 23)

21 Bazaar Lane  
Nov. 27. 1858

My Dear Dr. A. Gray

I have sent 4 copies of the folia to  
Hübner; and will ask you to have the  
kindness to distribute them as may be most  
useful. I have consumed all my time  
this winter in determining *Wrightia* species,  
of which I now enclose a list. At first  
rightly I thought little novelty would be found  
but a careful exam. has shown the abun-  
dances to be rich in novelty. I fear however  
there will be some confusion about the  
numbers, as the pantheas I know that they  
were much mixed. Will W. never  
again to put the flowery species in hot  
water. They dry quite as well in the  
usual way, and when boiled are  
in the small species most difficult to

Disput if disputable.

I shall hope before long to get the very  
Lother plants selected for you - now that  
Wright's job is finished. They will  
fill a large chest

Very truly yours

Wm Lindley
