

Monday 7

Dear Mr. Watson

Your aid may be  
invited in the distribution  
of the Explorations  
book.

I have suggested to  
Bro. Apies on sale  
with T. H. White, London  
& North Leipzige,  
and that the copies  
Mr. Brewster desired,  
(or a list I have given)  
be sent to those two  
places.

I have made no arrangement  
about sale of our  
American Apies.

Releasen will communicate  
with you. It might be  
done by him. — and some  
one else here like myself  
will be bookseller.  
I do not think much <sup>to you</sup> truth  
I suggest price  
to you. This is actual cost per copy  
\$12. which is about ~~cost~~ \$12.  
perhaps five bookseller \$2. as com-

Of other Gomphidiae (which I  
have not yet done into hb) there  
is nothing important to note as far  
as Prof. Palmer's coll. - except this,

Couvalvus ahrescens W.W.K.  
C. - <sup>+</sup> macranthus

I thought Chais & he had transformed the  
proper sp. of Knott. - I neglected  
to refer back to the P.M.R. - Suf-  
fice it that

C. ahrescens W.W. has the glabrous  
colla and obtuse or hardly acute  
leaves.

C. macranthus, i.e. Spuraea  
macrantha has colla tomatine  
outside, longer acute leaves. It is  
the Sc. J. mucronoides. R.S.

---

To-morrow is Sunday, I shall  
not go to Jardin des Plantes on  
Monday, but attend to business. In  
afternoon we go to Rouen, & join  
the Bank's for a little tour in Normandy,  
then back here.

The last news we had was of 26<sup>th</sup>  
 ult. from Alice. Hoping you are  
all well. I am sincerely yours

A. Gray
