

Memoandum

Aloe 5 ~~species~~ species.

Cotyledon Cristata

" cuneata.

Saussurea - thyrsiflora -

Pelargon. 4 formum

Cotyledon teretifolia

Mesembry. tegium

" felinum

" Echinatum

" linguiforme

Sarcocaulon Patersoni

Euphorbia - (S clavarioides), meloformis

Staphelia grandiflora?

" sp. serotina

" pentagon -

Kleinia acaulis, articulata - Repens

Mesembry. barbatum

Crucifera corymbulosa -

Monarda canna -

Crucifera perfoliata, falcata

" portulacae, lactea

Q. 1. May 478 seems very doubtful. It was by 2000 of us. marked in Coll. I. Sarcocaulon but showed have been labelled Physcia purpurea? Some have since worked it out & says that this is a real error. Can it be P. quadridentata?

Cassia orbicularis
romularis
lycopodioides
Anacamptis filamentosa
Corydalis longistylis
" orbiculata
" gracilis

Mesembryanthemum spectabile
Ceropegia stapeliiformis
sc.

Brassica Josephineae, humilis
Crinum revolutum, aquaticum,
longifolium.
Cyrtanthus spiralis, obliquus, sc.
Albuca sp.
Bulbine aloifolia
Eriosemum sp.

Haemanthus sp. revolut
Veltheimia undulata, glauca
sc.

These Lk. bulbs cannot be kept too dry in their season of rest when they have perfected their leaves. They must be watered overhead, the water gets between the scales of bulb & rots them. They are generally lost through over-kindness. *Crinum aquaticum* (very small thimb-like bulbs) want to be stood in the aquarium to grow & flower, & then to be gradually dried off completely.

Dried the mud
 The vases where they grow are baked as hard as brick in draughts without hurting them.

Gray, Asa. 1838. "Gray, Asa undated annotated memorandum." *Asa Gray correspondence. Senders McA-Ma*
