

Additions & corrections of my
Catalogue to be sent to Mr Oakes.

Eriophorum alpinum Chester Mass.

~~The plant in my catalogue called~~

The *C. retroflera* sec. Davis marked

Williamstown is different from the

plant so called in my catalogue. It is

the *C. rosea* B. minor of Dewey.

C. tenera sec. Davis differs from

mine in the latter having a longer

rostrum bent backward, spikes smaller

& more numerous & the leaves longer

and broader. Mr. D. appears ignorant

what it is, but says it is probably not *C. tenera*

C. cephalophora Williamstown Mass.

C. retrofl. see above

C. sparganioides Will. —

C. cristata common. It is not com. here.

C. paniculata Wmstown

C. setacea A plant which is precisely the

same as your *C. multif.* from Dew. Mr Dewey

says was determined by Mr. Dewey & himself

from Schw. to be *C. setacea*.

C. festuacea sec. appears very like your *C. scop.*

C. tenera see above

C. formosa Sheffield Mass

New England Botanical Club. and Robbins, James Watson. 1827. "Additions and Corrections of My Catalogue to be Sent to Mr. Oakes." *Plant lists from the New England Botanical Club*
