

## COLUMBIA COLLEGE HERBARIUM.

NEW YORK,

May 17 1889.

My Dear Dr:-

That is one of the points on which we differ then, I suppose.

What we are fighting for is stability of women's clature, and just as soon as we allow ourselves a choice of names, the desideratum is lost - reachable priority of place is quite as readily made out as priority of time - easier determined in many cases!

As to Opercularia, was it actually used as a generic name before Lepidorum? I am fully aware that it had been used sectionally but if you can refer me to its application as a genus before Presl Fl. Cech. (1819), I shall be greatly obliged.

Yours very truly,  
N. L. Britton.

Britton, Nathaniel Lord. 1889. "Britton, Nathaniel L. May 17, 1889 [to S. Watson]." *Asa Gray correspondence*
