

NEW YORK,

May 23 1889

My Dear Dr.:-

I take pleasure in sending you what there is here in Acrida. I wish you would separate out what has been called A. rhyssocarpa so I may know it.

The inquiry concerning the Hosack Herbarium opens up a question which I will try to settle and communicate to you the details at a future time. We are exceedingly busy here - just approaching the close of the session

Very Truly Yours
N. L. Britton
