

THE INTERVAL FROM THE
PINE GROVE

PHILBROOK FARM

THE VALLEY AND MOUNTAINS
FROM CABOT

SHELBURNE, N. H.

July 27th 1909

My dear Deane,

I have just returned from a trip over the Southern Peaks and down Buckenman's Ravine. The run was very good and it was glorious. We left the Ravine House at 8.45 A.M. and made the Big Poplars at 8.55 P.M. On the way we got a start at 8 A.M. and reached the road in the Glen at 12 M. where we found a load of fruit from the house and a fine lunch. There was a great lot of sand in the Ravine and the rock was forming so we could not go for fifty feet or more. The forms were splendid. Green Rock and Buckenman's Ravine in great proportion with

Myosotis and *Antithyris* *fallida*.

I wish I could have got to the
Garden, But Alder in bloom and
hurry willows put in evidence showing
how late anything was there.

I was glad to get your note with
evidence of a visit to the Marsh,
which I hope you found to be
"According to the book." Glad you had a
chance to make the visit. I shall
be very glad to send you two copies
when I return to New York.
Mrs. Penhallow joins in all
kind regards to Mrs. Deane and
family. Cordially yours,

D. P. Penhallow
