

told Dr. W. to equally divide  
what he could get between  
you & Mr. Pringle. But I  
received your letter asking  
me to send Mr. Pringle  
what I felt inclined to send  
you. The Dr. sent four  
hundred to him & may  
not be able to get more.  
Mr. P. wish so many roots -  
for instance 1500 of the  
*Thellium nivale*. Mary  
has an Aunt that lives  
on the prairie & can get  
two or three. We have here  
the *Viola rotundifolia*, *V.*  
*lanceolata*, *V. prunifolia* *V.*

incollata var. palmata. Many  
of the same species differ  
so much as to the leaves  
that Mr. G. thinks they ad-  
mish from another species.  
Mary Fisher has the Lark-  
spur violet. I know she  
would send you. I have  
a root of Collinsia that  
bore the journey from Ills  
here so well that it is  
fresh & the buds opening.  
I wish it was in your  
Garden. Do you think it  
would bear another journey?  
With your ever seed

Hosmer, Eliza. 1874. "Hosmer, Eliza [undated frag] [2nd item]." *George Edward Davenport correspondence*
