POUGHKEEPSIE, N. Y., Apr 9<sup>th</sup> 1879

Mr Geo E Daouville

Dear

Your catalogue recd. It  
 will be of much use to me and I  
 think to make from students &  
 collectors. You have made it very  
 complete & I hope it will pay  
 for me. I am glad to see  
 that you have some of  
 my specimens in your collection.

I did not think of your  
 putting them in your own herbarium.  
 & I wish have selected better  
 ones. I should enjoy looking  
 through your herbarium very  
 much. I return your  
 note in Campitocorn. I cannot  
 think that the fine has a very

Strongly indurated for Limestone,  
and you would not have it  
for coal over but luxuriantly  
it grows in a mountain ravine  
a few miles from Pokopai on other  
rocks than limestone. I find small  
fossils in the rock all about Pokopai  
but in this one place it grows in  
large patches often yards in size.  
This year I will visit the  
limestone & will report.

Truly  
yours  
L. D. Long
