

Steglitzstr. 20^{III}.

Berlin, W.

Feb. 25, 1906.

My dear Mr. Collins,

I am sorry indeed that I
could not attend the anniversary
Convention of the Botanical Club.
I have the new book with a copy of
Mr. Williams' interesting Club-history.

With reference to the *Sphagnum* I have
written Mrs. Britton. I think I can
attempt them if she cares to trust me
with them. I can do a good deal
of the bibliographical work, etc. at
odd moments over here and get things
in shape for the examination of
American specimens when I come back.
I may be over here for another year
or even two of them, and have

a lot of work on program. I'd I am fortunate to hope to
get a couple weeks in the summer for trapping and collecting
in the Norwegian mountains.

Bulfinch is now in better way in preparation for
the royal wedding. Activities are suspended for a couple
days. The number of royal holidays inflicted upon us
is now nothing appalling.

Wishing you all success in your work. Adelin and that
you again be working with my optogram. manuscript.

Very sincerely yours,

A. de Roy Landman.
