

Malabar May. 19. 1801

Dear Mr Collins

I have looked over the  
algae you sent me, & have put names as  
you requested, on most of them. In a few cases  
I should have had to pick out a piece for  
microscopic examination to make sure of the  
species; in those cases I have let it go with  
~~generic name only.~~

The specimens are ~~very~~ <sup>neatly</sup> mounted, and  
characteristic; though I made not special  
discoveries, I am much obliged for the opportunity  
of seeing them. Very truly  
Frank J. Collins
