

Cambridge Mass.  
Dec. 8, 1898.

Dear Mr. Collins,

I cannot thank you enough for the loan of your specimens of Ericaceae & Umbelliferae. It has enabled me to add 14 crosses to my R. I. list, so now I have an excellent list for your state. I wish I could see Carex Carmi from R. I. I have seen it from every other state and of course it grows with you. Then I know you have Angelica atropurpurea and, doubtless in some cold bog, there grow Kalmia glauca & Cudoneda polifolia. They will turn up some time surely.

I shall send your plants  
back to you to-morrow.

The other pkge will get  
to the Gray Herk. very  
soon.

W. M. Bailey writes me a Card  
I am so sorry he is under  
the weather. If you see him  
tell him I will write  
soon. How handicapped he is.  
It seems strange to think  
that "Rhodora" will be out  
in a little over 3 wks,

It is quite an under-  
taking.

Sincerely yrs.

Walter Deane

I have tucked some notes  
on some of the Vacciniums

Deane, Walter. 1898. "Deane, Walter Dec. 8, 1898." *James Franklin Collins correspondence*
