

Portland, Me. 9 April 1909.

Dear Prof. Collins:-

I have received through your kindness a copy of the "Key to the New England Trees." I have not had opportunity to examine this carefully or to use it; but a slight examination convinces me that it is no exception to the rule that we all recognize that what you do, you do well. It seems to me that many will find this specially useful as a key to the cultivated species.

With many thanks for your kindness in this, as in so many other matters,

I am sincerely yours
