

of Good Hope things.

*Atrichum angustatum*  
is however new in it.

Do you want some  
*Schistostegia* for your  
Herb, as I think I  
have some of Macoun's  
Canadian specimens  
I could spare.

Very truly yrs

Geo. G. Kennedy

THE PINES, BLUE HILL,  
READVILLE, MASS.

23 June 97

Dear Mr Collins,

Yours of the '22<sup>nd</sup> here.  
I thank you for Dr  
Blanchard's list of  
Mosses & shall com-  
pare them with my  
list. His  
territory is I suppose  
from 50 to 60 miles  
south of Willoughby.

I have never found  
*Schistostegia*, but Mr.  
Emile Williams I think  
found some in a wet  
cavern in the "Ice  
Gulch" a Ravine

in Randolph Ut.  
on the north side  
of the Presidential  
Range, and Mr  
Edwin Taxan gave  
me some that he  
collected on Jay  
Peak in Northern Ut.  
I have hoped it  
might be at Wellouph  
but it is not yet  
reported.

I am glad to hear  
you will report  
34 unrecorded  
Bryophytes at the  
Maine Bot Club  
meeting and I  
shall be glad to

see your entire list.  
Some day I mean  
to come down &  
spend an afternoon  
with you, at your  
convenience, when  
I am not running  
away from home  
all the time.

I have just received  
from London a copy  
of Hooker's Musci  
Exotici 2 vols.  
I hoped there would  
be a goodly number  
of American mosses  
there recorded, but  
it is mostly full of  
So American New  
Zealand & Cape

Kennedy, George G. 1897. "Kennedy, George G. June 23, 1897." *James Franklin Collins correspondence*
