

Readville Mass
26 Aug 1901.

Dear Collins,

Some years ago
Walter Deane turned
over to me the
"defecta" in Mosses
of Horace Mann's
Herbarium. I have
culled it over for
myself & the N. E.
Botanical Club &
send you the remains
in a little parcel
by mail. Perhaps
you may value
some of them on
account of the

Collector. I think
his real Herbarium
was sold to, and
is still kept at,
Cornell University.

I had a call from
Mr Williams last
evening & he was
very enthusiastic
abt his Maine trip.
I suppose you are
not yet home but
the package may
as well go to you
now as I have been
meaning to get it
off for several weeks.

I am still at home
& have done very
little Botany,
Do you find
Junonia scirpoides
abt Providence?
I never saw it till
last week when I
collected it at
Scituate Mass.
My kind regards to
your father & mother,
very truly yrs
