

Geological Survey of Canada.

Ottawa, Nov. 22nd, 1907.

Dear Sir:-

During the coming winter I propose issuing a new series of Canadian Musci collected chiefly by myself in the Yukon Territory British Columbia and the Rocky Mountains. These have all been determined by Tr. Kindberg and the series will include many new and rare species and varieties. The material furnished will be ample and only twenty-five sets will be issued. Two or at most three centuries will be ready for distribution before next spring ; the price will be \$8.00 per century and subscriptions will be filled in the order received.

Should you desire a series for your herbarium I hope to hear from you to that effect at an early date.

Yours truly,

*John Macoun*
