

SHEFFIELD SCIENTIFIC SCHOOL OF YALE UNIVERSITY.

New Haven, Connecticut,

190

Oct. 28. 1906

Dear Prof. Collins -

Regarding mosses - I have put in a good deal of time on them the last couple of years, but hardly feel I know them very well as yet. So far I have only had the opportunity to collect Connecticut mosses, except this last summer when I had a bully time with Mrs. Britton in Jamaica and also got a whack at Mt.

Washington. All the mosses I have collected I have put in the herbarium at the College here & have not

New Haven, Connecticut,

190

done much on my own account. The Eaton miss. habar. is pretty good but it might be more complete. So I shall have an interest in miss. outside Conn. on that account at any rate. I have quite a number of duplicates, most of them common, but if you wish any more Conn. miss. I can send you them as I get time.

Sincerely  
Geo. E. Nichols
