

Columbia Falls, Mont.

April 28, 1896,

Mr. J. Franklin Collins

Dear Sir,

I have been working for some years trying to get some sets of mooses ready for distribution. Perhaps they will be ready in June of this year. There will be over 200 species, probably at least 210, and about a dozen sets of each, which I believe, will be about as near alike as they grow. The specimens are only such as I have collected in Montana. I think they will be about \$16.00 per set, not including postage.

Yours truly,

R. S. Williams.
