

for the Pflanzengarten
under way.

With best regards,
H. H. Bartlett

Parkins Hall 60
Cambridge Mass.

Dear Mr. Collins,

Last night
my dormitory was in
such an uproar over the
prospect of a defeat at the
hands (or feet) of Yale,
that it was impossible
to study. So I wrote
labels for the few
mosses which I collected
this summer and sent
you the package this
morning. Of course I held
out the Sphagna, waiting

in a package for Mrs. Button
sometime. I was astonished
myself that she sent last
year Sphagna to Europe, but
it seems that Warnstorf is
not under the ban of her
displeasure, as are some
European bryologists. Warnstorf,
by the way, seems to be
not only willing, but anxious,
to receive American Sphagna.
I think he has the treatment

for a report from Dr.
Warnstorf.

Now please do not
consider that I am in
a hurry to get the
determinations from you.
It isn't absolutely necessary
that you should ever
name them at all, unless
you feel like it. In
case there is more
material than you care
for of any of the La.
mosses, I should like
to have you put them

Bartlett, Harley Harris. 1883. "Bartlett, Harley H. undated." *James Franklin Collins correspondence*
