

Cambridge 11<sup>th</sup> Sept. 1832

Dear Wright

Yours of the 9<sup>th</sup> has  
just reached me this mor-  
ning. I heard from Engh-  
rman you had got there, &  
from Torrey that sundry  
boxes had come to him, sup-  
posed to be from you - but which  
he could not open for want of  
keys. - & he was waiting  
to see you. You should  
be at New York, the end of  
the week to find him, I suppose,  
for, he is part of the week at  
Princeton.

Torrey writes me that Mr.  
Emory requires the late coll. to  
be turned over to him: yet he

shall at once hand them over to me, only desiring a set for himself - & he will furnish me duplicates of Perry's Wisconsin coll. -

You had better bring them on from New York directly here. For you must come & make me a visit, and we will talk over matters. I long to hear your adventures.

As Graham's own Report will not be printed for perhaps a year. I am giving as soon as I get your present coll. to ~~print~~ print a Pt. Wright part 2. Coll. of 1851 & 1852 up to the end of Compton's. I have the 1851 coll. all worked up to Compton's and am in them. Hope to have done them by the time your coll. 1852 is in my hands. Then we will distribute sets.

Dr. Hunt is now in New York.

As to the seed your brother wrote me that he did not care for them. Very few are strong enough. But here they are useful. & I have got 10 dollars from the Garden for its part of them.

When Torrey wrote me last he had got no letter yet from you.

Bring on the things from Engelmann when you come. Yours very cordially
