Cambridge Nov. 17. 1852

Dear Wright

Glad to hear of your
appointment. all night.

Unless I raise it, you will
have to wait till after the 1st
Monday in Dec - (near by) before
I shall have any cash for you.

I will then remit, unless there
should be some urgency -

It would be well to have
Endlicher's Genera. Try if
Bridges has got it.

I want to talk with you
about Sandrich Island Botany
and show you some things -
Your principal matters will
come from there

Let. from Bridges (H. Barline)
that part of Serman's Botany
of the Herald which has got the
Botany of N. Arctic America - the

Part 1. It will cheap
to me. —

You had better make me
a visit, at your convenience, before
you go. — I care not when —

If our chambers should be
occupied with some relatives expected.
I can procure you for lodgings
in the room at Caranagh's left
by the Blacks — who have
gone South — with Agassiz.

I wrote to Torrey, that
Sullivant had sent on a parcel
of Mokes named for you.

About Mokes you will do very
much for him on the other side.

They are immensely fine & abundant
there, especially in Oregon —

Yours very truly, Allen
