

Dear Wright

Yours of the 4th is this evening received.
 Enclosed is my draft on Leitham & Moore for
 \$53 - the rest from Boissier, which will
 be paid you on presentation, accompanied by the
 enclosed receipts, which they want to retain.

Brit. Museum has not paid yet. Booth
 says - always dilatory.

Endlicher's bribe will be of little or no use
 to you. I hardly know what you can have
 to fill in part the gap you mention.

Agardh's *Alga* it would be well to have.
 I would take it if I were you, & it not too dear.

Call on Mr. Putnam, ^{10. Park Place} who will
 give you a copy of the new ed. of Bot. Text
 Book, if it is yet bound up, as is most likely.

I shall send you men's about Sandwich
 Island plants to those Mads. & press &
 plates if I can get them.

I have just written to Bigelow again, &
 sent him Pl. W. 1st & 2^d - I am sure
 would gladly reward his pains -

The new (6th) part of Hortens Species
Filices contains a Cheilanthes Mightii,
Lindheimeri, Lindleri, aspera - & all in
your collection. In Bot. Mag. to Hooker
has figured the rusty colored Arthrochloa
from your specimens, I think.

I will write to you at Amherst -
I have Yrs very truly
