

Cambridge, Feb. 16. 1861

Dear Wright

Here is a line from Dr. Harkness - who appreciates all you are doing. They would be glad at New to have prints of Palms, and specimens - with notes of all you know. Will pay handsomely.

No news since I wrote last to you - not heard from you since

Mr. Sprague has paid off my mortgage on his place (by mortgaging it deeper elsewhere), and so I have paid off ~~you~~ my notes to you in your brother's hand. The principal for which was invested there. The interest brought my payment up to \$691.

If you come home in the summer, you will find us all turned up, into the building of a fine-front Shutland.

which Mr. Thayer - a Boston
gentleman - gives to the
College, at the cost of about
\$11,000.

In the autumn it will be
all done - now in in October.

I have just sold another copy
of your Flora & Mosses -
Very few of the former left;
and the latter will all go
when the 2^d part is edited.
I hope you will send up for
Harvard all the Mosses you
have collected - that Sullivan
can work them in.

Do not be afraid that we shall
not sell as many sets of all
plants - Phary, Cryptog., as
you collect.

I wish our Ginsbach
would make a general work
on Phyt. Atl. Cuba - based on your
collections. Ever Yours
A. Gray
