

N. 401. C. Wright. Phipps & Rodg.

Passiflora n. sp.

? name of island - Soong Kong -

? if truly wild there

It is closely allied to *P. Kousfieldii* W. Moore &

P. moluccana of same author.

Dear Wright, Dr. Masters to-day showed me specimen of
the above Passiflora (he is studying the genus), and asked me to
read the indication of locality. I read it "Soong Kong I."
Is that right. He thought it strange such a sp. should come from
Coast of China - being of a Molucca or Borneo group. Tell
me in your next any thing you remember or can make out of its
habitat, &c. - I shall write again soon. A.S.

Oct-19. A letter to Prof. Lundy
from J. Samuel Moore & A. S. B. H.

Guerineau

Mr. Thompson of
Ossipee has been much im-
well - he thought he had written
to acknowledge the arrival of the seed
of Pentstemon grandiflorus & Juncus
which you sent him - 2 series -
(By the way, they are handsomely
protected by envelopes). He thanks you
heartily, and this fall he would
like some more - a rather small
quantity only.

A. G.

Kear. 20th Sept. '69

Gray, Asa. 1869. "Gray, Asa Oct. 1869." *Charles Wright correspondence with Asa Gray*
