

GRAY HERBARIUM OF HARVARD UNIVERSITY,

BOTANIC GARDEN, CAMBRIDGE, MASS.,

May 2, 1904

Dear Oakes,

I have just written to

Dr. Fellows of Portland for Viola
septentrionalis which he & I got
together at Cape Elizabeth; to
Leman Andrews of Southington, Conn.,
for Viola palmata which he gets
on Meriden Mt.; and to Dr.
E. H. Eames of Bridgeport for
V. septimloba; so you may
be prepared for a large influx
of material soon.

I find that Dr. Watson's
Types of Habenaria published in

The Botany of California are here, as
we supposed.

I shall spend next Saturday
& Sunday in the Connecticut Valley
at Walpole, Ct. H., & may pick
up some things there which you
will want.

Sincerely yours,
Merritt L. Fernald.
