

SMITHSONIAN INSTITUTION
UNITED STATES NATIONAL MUSEUM
WASHINGTON, D. C.

September 9, 1924.

Mr. Oakes Ames,
355 Commonwealth Avenue,
Boston, Massachusetts.

Dear Mr. Ames:

Inclosed is a specimen of an orchid (no. 73) included in a collection of Nicaraguan plants received recently from Brother Artemio. We should much appreciate having your identification of this specimen when convenient. The material need not be returned to us.

A few days ago I returned from about a month spent in botanical work in southeastern New Mexico. I did not see any orchids there, but did find many other things of interest. I am interested in learning whether you have yet had time to take up the Costa Rican orchids and what you have made of them. Recently we have received several good sized packages of orchids from Alfaro in Costa Rica, and I hope to have these ready to send to you before long. He seems very enthusiastic in his study of this group and must have obtained some good things.

Sincerely yours,

Paul C. Standley

Paul C. Standley
Associate Curator
Division of Plants.

Pleurothallis aff. P. nicaraguensis Reichb. f. + P. lyro-
glossa Schltr. - No good flowers -

Bro. Artemio 73. from Managua, Nicaragua.

September 9, 1924.

Mr. Charles Allen,
255 Commonwealth Avenue,
Boston, Massachusetts.

Dear Mr. Allen:

Inclosed is a specimen of an orchid (no. 73) included
in a collection of Wisconsin plants received recently from
the University of Wisconsin. It is a very fine specimen of
the plant and is well worth the trouble of sending it to you.

I have also returned from about a month's absence in
botanical work in the University of Wisconsin.
