February 21, 1942

Dr. Richard Evans Schultes
Instituto de Ciencias Naturales
Bogata, Colombia

My dear Ricardo:

I was very glad to have your letter, though quite short, also many thanks for the fine stamps of Ecuador.

I must confess that I have not seen the Boletin de Instituto Botánico de la Universidad Central de Ecuador. I shall have to look it up now as they have started planning.

I suppose that you know that your friend Smith has arrived back in the United States. I talked to him for a few minutes but he was so reticent that I was able to get relatively little out of him.

When is it that you are going to come back out of Colombia and do you think that you will be able to come out without too much difficulty? How about the specimens? Are you going to be able to get them out all right? I hope that you will be able to get a boat when you want to leave and that you do not have to fly up and leave the specimens there.

I presume that Dr. Dugand has found it impossible to come up here, at least so far as I know, he has not been around as yet.

With my regards I am

Sincerely,

LOW/cl

Williams, Louis O. 1942. "Williams, Louis O. Feb. 21, 1942 [to R.E. Schultes]."
