Dear Dr. Kennedy;

Finally I have got thro' with  
your caricatures and return them by ex-  
press. I found them an interesting  
and critical lot and have spent a  
good deal of time on them, much to  
my satisfaction. They enable me  
to understand the obscure C. mili-  
aris pretty well, and to satisfy  
myself of what I have always

suspected, that *C. miliaris* v.  
*aurea* is *C. monile* v. *Racosa*.

I only regret that I have been  
so long in looking them over, but  
many things have made earlier  
attention impossible.

Yours truly,

L. H. Bailey
