Professor.

J. FRANKLIN COLLINS, B. P.,  
Curator of the Herbarium.

HAVEN METCALF, A. B.,  
Instructor.

PROVIDENCE, R. I., Jan 2 1897

Dear Dr. Kennedy:

I have been looking over my "Observers" for Mrs. Britton's articles, and find she has published eight under the title "How to Study the Mosses" as follows:

- 1.- Vol. 5 (1894) page 82. (March)
- 2.- " " " " 114. (April)
- 3.- " " " " 151. (May)
- 4.- " " " " 180. (June)
- 5.- " " " " 215. (July)
- 6.- " " " " 246. (August)
- 7.- " " " " 306. (October)
- 8.- " 6 (1895) " 17. (Feb.)

This last ("page 17") is the page number in the dept. of "Practical Microscopy" which is, in part of this vol., (unfortunately) separately numbered.

In vol. 7. (1896) she has the following.

- "The Luminous Moss" (*Schistostegia*) p. 15. (Jan)  
"The Humpbacked Elves" (*Buxbaumia*, &c.) p. 105 (Mar.)  
"The Brownies" (*Phascium* & *Pleuridium*) p. 246. (May)  
"The Water Nymphs" (*Fontinalis* &c.) p. 442 (July)  
"The Umbrella Mosses" (*Splachnum* &c.) p. 637 (Oct.)

All these articles are 3 or 4 or more

pages long. There are also a few shorter articles in <sup>some of</sup> the same numbers here indicated.

If, in the limited time at my disposal for botanical work, and in my humble way, I can be of any assistance to you in the study of the mosses (our "hobby") please do not fail to let me know of it.

If I cannot give you the assistance or information on the particular subject desired (and I fear this will be the case only too often for I am as yet but a beginner myself) I can, at least, (and stand ready to) own it

Very sincerely

J. Franklin Collins  
126 East Ave.

Collins, J. Franklin. 1897. "Collins, James F. 2 Jan 1897." *George Golding Kennedy correspondence*
