

Rutland, Vt., June 7, 1899.

Geo. G. Kennedy,

Dear Sir

Your separate on
Pottia Randii received for
which accept my thanks.

I am planning a trip
into north eastern Vt. in July.
to explore the Connecticut
river shores from the Fifteen
Mile Falls, ^{up} and Essex Co.,
our Vt. region which has
received no attention, hope
to get new plants for Vt. and
New England as well.

I am wanting to sell sets
of plants to defray my ex-
penses on this trip.

Shall have from two to four hundred rare or critical species to supply, including some of the rarest in Vt. and N. E.

My terms are \$7.00 per hundred or less than a hundred 10¢ per sheet. Plants guaranteed to be first class, according to our modern ideas of herbarium material.

Will you take a slit, and can you tell me of others who might? Your son-in-law, Mr. Briggs, of Lebanon, N. H. helped me get Arceuthobium pusillum last spring, this spring I have found two stations near Rutland, the first in Vermont.

Yours truly
W. W. Eggleston.

Eggleston, W. W. 1899. "Eggleston, Willard W. 7 Jun 1899." *George Golding Kennedy correspondence*
