

Cambridge,  
March 7.  
1896.

Dear Doctor,

I suppose that you are likely to see the Faxon's soon and will talk with them about the Mountain Flora. If they would like to have the whole committee meet, I shall be glad to meet them at any place, at my house, in Boston, or wherever, they think best. Mr. Sargent told me that the Faxon's did not have the least interest in the Club but I am not sure that he really knows. I do hope that they will feel that they are willing to help in the Mountain

work and push things to some  
definite point. If men like them  
hold off, the value of the Club  
will be much diminished.

Yours, truly,

W. G. Farrow.
