

Cambridge

July 16.

1897

Dear Doctor,

I am very much obliged for your moss. It seems to me that you are right in putting it in *Tayloria* and the specimen I examined seemed to belong to *T. tenuis* rather than to *T. serrata* unless the two are to be called forms of the same species.

It is lucky that
I left the Summit
when I did. Had I
waited until the
next day I might not
have been able to
get away. I see that
a train was blown
from the track.

I shall be glad
to dine with you
on Sunday if you
will let me know
when to come and
how to get to your
house. I would,
however, like to

make the reserva-
tion that you will
excuse me should
Sunday turn out
to be a scorcher.

Yours, truly,
W. G. Farrow

Farlow, W. G. 1897. "Farlow, William G. 16 Jul 1897." *George Golding Kennedy correspondence*
