

Harvard and did not
quite comprehend
her motive. There
are a good many
things to be considered
and, although I should
be glad to have a
physiologist appointed
I should wish to
know beforehand
more definitely about
the future. I also
think that her notices
about money are a
little vague. However,
without knowing what
Mrs. B. said to you, it
is hardly possible to say
more. Yours truly
M. G. Harlow.

Cawnpore
Sept. 4,
1888

Dear Doctor
I was so much
used up last week
that I was unable
to attend to the busi-
ness and letters which
I had to attend to
before I could leave
town and I could
not get ready to
leave on Saturday.
I am glad that I did

not start far, send
you not till day was
I should have been
completely used up
before reaching
Willoughby.

I shall start
for Campobello to-
morrow by steamer
to join my brother.
The heat still con-
tinues and I do not
feel up to a long
railroad journey
for my head is
troubling me a
good deal. I am

glad that I did
not give out while
the botanists were
here. If the weather
ever gets cooler I
suppose that I
shall be all right
but it will take
a week's resting
before I am in
condition to make
any long excursions.

Did Mrs. Britton
tell you what she
told me? I was sur-
prised at her projects
for bryologizing

Farlow, W. G. 1898. "Farlow, William G. 4 Sept 1898." *George Golding Kennedy correspondence*
