April 3, 1909.

Dear Doctor, Do not Lelaginella
superstus grown on the rocks near your
house? If so, when you are out
walking would you please keep an
eye on it and, if you find any in fruit
put it in your pocket. Goebel wants
some fern fruit which is common

enough in this region but unfortunately
I am so situated that I cannot make
field excursions.

Yours, very truly,
W. G. Fernald.
